

Program Advising Session Schedule | Winter 2026

Ridge Road Campus

The academic advising process will start on January 5th for those who need it. Those requiring advising will be contacted by an Instructional Coordinator (Yvonne Lannon or Boyd Pynn). This advisement may be conducted by email, phone, or in person depending on the circumstances.

If you have successfully completed all courses in your program to this point you will be automatically enrolled in the courses, you selected during the Online Registration process in December. If you have questions or concerns about these, you can contact the instructional coordinators to discuss after the Winter semester enrollment process has been completed.

If your overall GPA is below 2.00 it puts your ability to progress in your program in jeopardy and will prevent you from enrolling in Work Terms or Capstone courses. You should discuss options for reduced workloads and/or academic supports with the Guidance Counsellor (Frank Williams) or the Instructional Coordinators.

Classes on resume for all students on January 6th. Schedules will be available under self-service.
