Bring Your Own Device Information

In Fall 2020, all CNA students will be expected to have their own computer for use in their program of studies. All programs do not have the same technology requirements so the College has identified four levels of computers base on the technology used throughout your entire program of studies. You can purchase any device as long as it meets the specific minimum hardware requirements for your program.

Technology and connectivity could come through a desktop, laptop or tablet but must meet the program technology requirements. For portability and productivity reasons, the College recommends purchasing laptop devices.
